

RESEARCH PROPOSAL

Team: *Occam Kelly Graves, Nestor Coria, Mavis Stone*

Research Question:

Has there been a significant change in flu rates this year correlated to lockdown dates by state?

Required tests:

- Simple regression test
 - To prove that there is a relationship between the flu and lockdown
- Paired T-test
 - Comparing past population with current population
 - Testing for whether there is a significant difference in the number of influenza cases per state

Data Visualization:

- Overlap mean data for each year per week
